Very early new introduction PRIDE RR2 grain hybrid

Hybrid Features:

- Early pollination and finish.
- RR version of A4199G2 RIB.
- Nice grain quality and consistency.
- Rapid emergence and superb seedling vigour for a fast early season start.
- Open flared senesced husks for enhanced drydown.
- Roundup Ready® crop safety yield advantage.

Positioning/Management:

Plant at 32,000-36000 pl/acre. Medium plant height with medium height ear insert. Plant early to take advantage of exceptional emergence and vigour. Very suitable for cold soils and early planting. Excellent adaptation to marginal and stress soils. Average late season intactness. Check with PRIDE Seeds for a list of competitors to position against.
