

A4177G3 RIB

2275 CHU
72-75 Days
(2100-2300
Silage CHU)

PRIDE

Early VT Triple PRO[®] RIB Complete[®] Hybrid

Hybrid Features

- RIB Complete[®] with 10% refuge in the bag for automatic refuge compliance
- High performance Genuity[®] VT Triple PRO[®] version of A4176BtRR with rootworm protection
- Excellent early maturity multi-purpose use with high energy, starch content and digestibility.
- Flint dent grain with white cob and stout girthy ear style
- Outstanding emergence and spring vigour
- High consistent performance potential in early zones
- Roundup Ready[®] *crop safety yield advantage*

Positioning/Management

Excellent multi purpose choice for grain, silage and HMC. Excels as silage and high moisture. Great choice for no-till and reduced, corn on corn with fungicide. Very suitable for early planting and cold soils.

Hybrid Management Guidelines

Characteristics

Ear Type Fixed
Grain Aspect Excellent
Kernel Rows..... 16
Disease Tolerance Fair

Adaptability

Grain Good
Silage Excellent
High Moisture Corn... Excellent

Growth

Flowering for Maturity Early
Mid Flowering 1112 GDU
Black Layer 2177 GDU
Emergence Excellent
Spring Vigour Excellent
Plant Height Medium
Ear Height..... Medium-Low
Stalk Strength Good
Root Strength Very Good
Staygreen Fair
Drought Tolerance Good

Planting

Suitability: No-till, minimum, conventional
Corn on Corn, benefits from foliar fungicide
Final Population (000s per acre): 29-32

Harvest

Harvest Timing....Early-mid avoid late harvest
Test Weight..... Good
Drydown..... Fair
