NEW Roundup Ready Hybrid with Outstanding Yield Potential

Hybrid Features

- Roundup Ready *crop safety yield advantage*
- Exceptional yield performance and consistency
- Excellent disease tolerance
- Outstanding emergences and spring vigour, stalk and root strength
- Medium sized ear style with excellent drydown
- Very suitable for early planting, cold soils and late harvest timing

Positioning/Management

Exceptional emergence and spring vigor. Slender, fixed ear hybrid that should be planted at seeding rates of greater than 32,000/ac to maximize yield potential. Excellent spring vigour conducive for tough cold soils. Outstanding vigour and plant health for no-till farming operations. Check with PRIDE Seeds for a list of key competitors to position against.

Hybrid Management Guidelines

Characteristics

Ear Type Semi-Fixed
 Grain Aspect Excellent
 Kernel Rows..... 16
 Disease Tolerance Excellent

Adaptability

Grain Excellent
 Silage Very Good
 High Moisture Corn... *

Growth

Flowering for Maturity Average
 Mid Flowering 1170 GDU
 Black Layer 2210 GDU
 Emergence Excellence
 Spring Vigour Very Good
 Plant Height Medium-Tall
 Ear Height Medium
 Stalk Strength Excellent
 Root Strength Excellent
 Staygreen Excellent
 Drought Tolerance Excellent

Planting

Final Population (000s per acre): 32-36
 Suitability: No-till and reduced

Harvest

Test Weight..... Excellent
 Drydown Excellent
 Harvest Timing..... Flexible
