

REPORT FOR THE THREE MONTHS ENDED DECEMBER 31, 2024

CANTERRA SEEDS HOLDINGS LTD. (the Company) is a recognized leader in the pedigreed seed industry. Headquartered at 201-1475 Chevrier Boulevard in Winnipeg, Manitoba, the Company is committed to delivering high quality seed to its customers throughout Western Canada. The consolidated financial statements of the Company that follow are for the three months ended December 31, 2024.

CANTERRA SEEDS reports a net loss for the three months ended December 31, 2024, of \$1,779,650. This compares to the December 31, 2023, results where the Company recorded a net loss of \$1,351,432 for the same three-month period.

1. INTRODUCTION

The following Management's Discussion and Analysis (MD&A) provides information which is supplementary to the CANTERRA SEEDS HOLDINGS LTD. results of operations and financial position. The MD&A should be read in conjunction with the unaudited interim condensed consolidated financial statements and notes to the financial statements for the three-month period ending December 31, 2024. The financial data in this report and in the financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting as issued by the International Accounting Standards Board (IASB).

All amounts reported both in the MD&A and in the consolidated financial statements are in Canadian currency and the consolidated financial statements were authorized for issue by the Company's Audit Committee and Board of Directors on February 18, 2025.

2. FORWARD-LOOKING INFORMATION

Certain statements in this MD&A may constitute forwardlooking statements. These forward-looking statements can generally be identified with statements that include the phrases such as "believe," "expect," "anticipate," "intend," "plan," "likely," "will" or similar words or phrases. Similarly, statements that describe the Company's objectives, plans or goals are, or may be, forward-looking statements. These forward-looking statements are based on the Company's current expectations and its projections about future events. However, whether actual results and developments will conform to the Company's expectations and projections is subject to several risks and uncertainties. These include, among other things, the risks and uncertainties associated with seed production, product performance, competition, poor weather, commodity prices, credit, and foreign exchange risk. These are not necessarily all the important factors that could cause actual results to differ materially from those expressed in any of the Company's forward-looking statements. Other

known and unpredictable factors could also harm results. Consequently, there can be no assurance that the actual results or developments anticipated by the Company will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company.

3. RESULTS OF OPERATIONS – THREE MONTHS ENDED DECEMBER 31

SALES AND GROSS PROFIT

CANTERRA SEEDS records revenue on the sale of canola seed when the product is shipped and delivered to the Company's seed retailers. While these products are ordered and delivered at various times between the months of December to June, the product will not be planted until spring, with seeding occurring mainly in April and May. When deliveries take place and when, therefore, revenue is recorded for canola, is dependent on many factors, both internal and external to CANTERRA SEEDS. These include the availability of warehouse space, the timing of seed treating, the availability of trucking for deliveries, the timing of quality testing and of course, when the customer (both the farmer and retailer) wants the product delivered to their operation. For the period of October 1, 2024, to December 31, 2024, there were no deliveries and no sales during the quarter. For the first quarter of the prior year, there were a small number of early deliveries of canola that created some sales.

Besides the early deliveries of canola, the only other sales that occur from October 1 to December 31 is the recording of royalties relating to winter seeded cereal crops. These sales were very comparable year to year.

In total, CANTERRA SEEDS sales reduced by \$2.32 million from \$2.34 million in 2023 to \$0.02 million in 2024.

With this reduction in sales, gross profit has also reduced. In total, the gross profit has reduced by \$0.47 million from \$0.47 million in 2023 to just more than \$0 in 2024. With no substantial sales for the current year the gross profit percentage year to year has reduced but is not a relevant comparable at this time.

OTHER REVENUE

Other revenue decreased significantly during the quarter, from \$0.31 million in 2023 to \$0.06 million in 2024, a reduction of \$0.25 million. This is due to the timing of partnership payments. In 2023 some of these were received in December and this did not occur during the current year, instead these payments will be occurring in Q4 with the balance of the partnership payments.

REPORT FOR THE THREE MONTHS ENDED DECEMBER 31, 2024

OPERATING, GENERAL AND ADMINISTRATIVE EXPENSES

These expenses have reduced by \$0.14 million or 12.2%, from \$1.18 million for the three months ended December 31, 2023, to \$1.04 million for the three months ended December 31, 2024. The largest reductions year to year were in meeting expenses, advertising and promotion, and some recruiting expenses.

LOSS FROM JOINT VENTURES

This amount relates to CANTERRA SEEDS' 30% joint venture in Limagrain Cereals Research Canada (LCRC). The loss has reduced from 2023 to 2024. There is a reduction of \$17 thousand from \$110 thousand for the three-month period ending December 31, 2023, to \$93 thousand for the same three-month period ending December 31, 2024.

DEPRECIATION AND AMORTIZATION

Depreciation/Amortization costs increased by \$19 thousand from \$209 thousand for the three months ended December 31, 2023, to \$228 thousand for the three months ended

December 31, 2024. The biggest increase for this is an increase in amortization for right of use assets as the Company's lease costs have increased, one additional Territory Manager and inflationary changes.

SALARIES. WAGES & BENEFITS

Has reduced by \$0.01 million from \$1.08 million for the threemonth period ended December 31, 2023, to \$1.07 million for the three-month period ended December 31, 2024, a reduction of 0.9%. Salary increases year to year is more than offset by a reduction in staff compared to the previous year.

INTEREST

There is an increase in interest expenses. From \$9 thousand for the three months ended December 31, 2023, to \$13 thousand for the three months ended December 31, 2024. Due to timing of Accounts Payable repayments the Company used its line of credit in December 2024. This, in turn, increased the interest expense from the prior year.

4. SUMMARY OF QUARTERLY FINANCIAL INFORMATION - RESTATED

Selected Quarterly Financial Information Consolidated

(\$000's except per share amounts)	2024/25 Q1	2023/24 Q4	2023/24 Q3	2023/24 Q2	2023/24 Q1	2022/23 Q4	2022/23 Q3	2022/23 Q2
Total Revenue	21	3,273	3,045	40,408	2,345	1,242	18,922	36,217
Net Income (loss)	(1,780)	(744)	(1,529)	4,083	(1,351)	(342)	611	2,409
Earnings (loss) per Share (diluted)	(0.24)	(0.10)	(0.20)	0.54	(0.18)	(0.05)	0.08	0.32

CANTERRA SEEDS principal business is the distribution and sale of seed for the main field crops grown in Western Canada including canola which occurs from December until June. Delivery of these sales generally takes place from December until May, as farmers prefer to defer delivery until a date closer to their time of seeding. Most of the deliveries and sales take place in the months of February to April (02 & Q3). The October to December quarter consists mainly of the recording of royalties for fall seeded cereal varieties, along with some adjustments on late reported spring tech feels and some early deliveries of canola. The financial quarter Q2, from January to March, is made up mainly of canola seed deliveries and sales, along with some early deliveries of pedigreed products. Q3 sales consist of additional canola sales, along with the balance

of the spring stock seed and registered and certified sales of CANTERRA SEEDS licensed seed. The quarter consisting of the months July to September (Q4) generally includes only royalties collected on sales of CANTERRA SEEDS licensed seed along with any adjustments on sales recorded during the previous three quarters.

If there are any write-downs of canola inventory this generally occurs in Q4, the months of July through to September. This is when the stock is tested for germination and hybridity and a future sales plan for each canola variety is finalized.

REPORT FOR THE THREE MONTHS ENDED DECEMBER 31, 2024

5. LIQUIDITY AND CAPITAL RESOURCES

The Company's cash and short-term investment position has reduced by \$8.06 million for the three months ended December 31, 2024.

Cash used for operating activities during the first quarter was \$7.72 million. The main uses are as follows:

- CANTERRA SEEDS paid down outstanding Accounts Payable balances by a total of \$8.49 million.
- The Company increased its inventory and prepaid expenses by \$5.44 million to have canola products available for sale for the 2025 and 2026 crop years.
- The loss recorded during the quarter and income tax payments and accruals used an additional \$2.04 million.

These were partially offset by some uses of cash as follows:

- Deposits made by customers for purchases of CANTERRA SEEDS products for the 2024 crop year. This increases totals to \$6.62 million.
- Payments were received on outstanding Accounts Receivable adding \$1.63 million.

For financing activities, the Company paid down \$0.12 million of lease obligations during the quarter.

The cash used for investing activities was \$0.22 million. The main amount here was a loan to an affiliated company that was paid back during the quarter. This caused a cash outflow of \$0.10 million. In addition, the Company had net purchases of long-term assets totaling to \$0.12 million during the quarter.

6. OUTSTANDING SHARE DATA

Issued securities as of February 18,2025, are as follows:

Issued	Book Value
7,551,147 Class A common shares	\$12,109,827
2,196,000 Class B series 1 shares	\$545,281

CANTERRA SEEDS HOLDINGS LTD. is a reporting issuer. Shares of the Company can be traded privately between two parties, with or without using the assistance of a broker, or can be sold "over the counter" at a licensed security trader. There have been no sales out of treasury so far for the 2024/25 fiscal year but in the last 12 months CANTERRA SEEDS sold an additional 24,000 Class B shares out of treasury. For the previous twelve-month period ending December 31, 2023,

the Company sold 54,000 Class B shares out of treasury. The Company did not sell any Class A common shares out of treasury over the last twenty-four months.

Besides the share transactions from treasury, there are share transactions that are trades between outgoing and new shareholders. During the last twelve months there were 1,532,198 Class A shares and 36,000 Class B shares transferred outside of treasury. Included in this was the sale of 1,286,187 Class A shares sold by Ceres Global Ag. Corp. to United Farmers of Alberta Co-operative Limited. During the twelve months ended December 31, 2023, there were 114,026 Class A shares and 54,000 Class B shares transferred outside of treasury.

7. FINANCIAL INSTRUMENTS

A very small portion of the Company's revenues and expenses are denominated in US dollars. The Company is therefore exposed to currency fluctuations on transactions in US dollars. Currency fluctuations may impact on the profitability of the Company, specifically for CANTERRA SEEDS who buys more US dollars than it would earn when the Canadian exchange rate is weaker compared to the US dollar it will work to reduce margins of the Company. This risk is managed, where practicable, with foreign exchange forward contracts to fix the exchange rates on future net foreign currency cash outflows along with fixed Canadian \$ priced contracts for untreated canola seed. The Company does not hold or issue derivative contracts for speculative purposes. As of December 31, 2024, CANTERRA SEEDS has no outstanding foreign currency forward contracts in place.

8. OUTLOOK

The most effective way to analyze the seed sales at CANTERRA SEEDS is to break the business down into their two methods: (1) canola sales where CANTERRA SEEDS acts as the manufacturer and processor and sells the seed in a CANTERRA SEEDS branded bag, and (2) pedigreed seed sales where the products are owned and distributed by CANTERRA SEEDS seed grower shareholders and the Company collects a tech fee (royalty plus margin) for the grower's right to produce and sell these varieties which are under exclusive license from the breeder to CANTERRA SEEDS.

REPORT FOR THE THREE MONTHS ENDED DECEMBER 31, 2024

With canola, the Company will continue to focus on the critical success factors:

- The Company will continue to introduce "leading-edge" spring canola hybrids into the western Canadian and U.S. markets. The Company partners with several of the top canola seed and trait developers in Western Canada. This ensures that only those hybrids that meet or exceed the market standard are introduced. CANTERRA SEEDS is selling hybrids that deliver the agronomic traits farmers expect and require such as clubroot and blackleg tolerance, shatter tolerance, TruFlex® canola, Clearfield® (Non-GMO) production system for canola and LibertyLink® canola, with various ranges of maturity, that compete with the best in the market. For the 2024 crop year CANTERRA SEEDS introduced CS3200 TF, a TruFlex® canola hybrid. For the 2025 crop year CANTERRA SEEDS is introducing two new canola varieties. First, CS3300 TF, a TruFlex® canola hybrid, has been released. This product is an early maturity variety with multigenic blackleg resistance, 1st generation clubroot resistance, and excellent straight cut abilities due to its PodProtect™ shatter tolerance rating of 7+. In addition, the Company has introduced its second LibertyLink® canola variety. CS4100 LL is a mid-season hybrid suitable for all growing zones, has multigenic blackleg resistance, both 1st and 2nd generation clubroot resistance, and excellent straight cut abilities due to its PodProtect™ shatter tolerance rating of 7+.
- Secondly, the Company will continue to distribute
 products that are of impeccable quality. To this end,
 CANTERRA SEEDS has implemented a quality control
 policy that is of the highest standard in the industry.
 It ensures that the canola seed quality not only meets
 the standards set by the Canada Seeds Act but exceeds
 these standards and the competition in the market.
- Thirdly, there is always the risk of inventory obsolescence with all seed products. This could be due to germination levels no longer meeting the required specifications or because the variety is no longer competitive in the market. The Company proactively manages the lifecycles of the specific hybrids and varieties as well as following its strict seed quality protocol that keeps these risks to a minimum.

Finally, it is critical that the Company ensures its canola products are accessible to as many farmers as possible. CANTERRA SEEDS has worked diligently to continually improve the corporate brand and canola distribution footprint, ensuring CANTERRA SEEDS canola hybrids are easily accessible at a local retailer. The Company is now distributing its canola product directly with its partner independent retails across Western Canada. Every farmer in the Prairies will have access to a local retailer who distributes CANTERRA SEEDS canola.

CANTERRA SEEDS is working to increase its market share in the western Canadian canola market. This improvement started in 2020 and has continued to grow through 2023. There was a small reduction in canola sales at CANTERRA SEEDS in 2024, but the Company has determined the causes of this reduction and has designed sales and marketing tactics that will allow the increase in market share to continue. In addition, CANTERRA SEEDS works diligently with the critical success factors outlined above to ensure that the Company regains its momentum for the 2025 crop year. Although still early in the canola sales cycle, orders for canola have increased from the prior year by approximately 10%.

For the pedigreed seed business, the Company will focus on the critical success factors of the business as follows:

- CANTERRA SEEDS will continue to access leading edge varieties by focusing on the following.
 - Firstly, CANTERRA SEEDS has been very successful at acquiring high-performing varieties from public breeding entities like Agriculture and Agri-Food Canada, the Crop Development Centre, and the University of Alberta.
 - Secondly, the Company is a 30% partner with Limagrain, one of the world's largest and most innovative field seed companies, in the cereals breeding venture named Limagrain Cereals Research Canada (LCRC). CANTERRA SEEDS has licensed several varieties from this partnership, including CS Daybreak, CS Accelerate, CS Recoil, CS Garde, CS Breadwinner, CS Baker, and CS Palisade. In addition, Limagrain has entered a joint venture with the pulse crop development board, Saskatchewan Pulse Growers. The objective of this joint venture is to bring the very best

REPORT FOR THE THREE MONTHS ENDED DECEMBER 31, 2024

germplasm of peas and lentils in the western Canadian market into the future. CANTERRA SEEDS has a priority position to access products from this venture and has licensed the following small red lentil varieties from Limagrain, CDC 6928, CDC 6956, CDC 6930, CDC 7208, and CDC 7026-13. Also, CANTERRA SEEDS has licensed one yellow pea from this joint venture, CDC 5791. LCRC is now entering its tenth year of operation and is at the point where it's ramping up production of leading-edge varieties both in cereals and pulses. CANTERRA SEEDS has first right to any cereal varieties that are registered from this entity, which is now registering varieties bred in-house using top western Canadian parent lines, into the market. It also has a priority position on any peas and lentils that are registered by the Limagrain/SPG joint venture and while there aren't any in-house varieties currently being registered the joint venture is well on the way to make this happen. It is expected that this will continue to bring the very best new wheat and pulse varieties to Western Canada and will continue to ramp up the Company's market share in these crop types into

- Lastly, CANTERRA SEEDS has arrangements with breeders throughout the world to test and register products in Western Canada. This has been very successful for the Company and currently one of its most successful pedigree products, CS Camden, came from one of these partnerships.
- On the distribution side for pedigreed seed, CANTERRA SEEDS ensures that it partners with the premier seed growers in Western Canada. Currently, the Company has 187 seed licensees throughout the Prairies that are growing and selling CANTERRA SEEDS licensed varieties. This will ensure that the Company's varieties are readily available in the areas best suited to plant those products. The Company will continue to add growers where needed and as required, to ensure that farmers throughout the region will have access to the highest quality CANTERRA SEEDS product available.

The market conditions of 2025 with lower commodity prices and drought-like conditions in some areas of the prairies continues to reduce the amount of certified seed purchased by farmers as they often prefer to reduce their overall input costs to better manage the economic risks with their crops. CANTERRA SEEDS, however, is in the process of introducing some leading-edge pedigreed products to its portfolio. With this, it is expected that CANTERRA SEEDS will increase these seed sales substantially both in 2025 and in future years.

With the affiliated companies results as mentioned earlier, LCRC will continue to improve its earnings as it continues to register new varieties for the western Canadian market. LCRC is also part of the Variety Use Agreement (VUA) project which will enable it to receive royalties on all acreage seeded with its varieties. These improvements in revenue will occur while operating expenses are kept quite stable. Over the next four to five years, it is anticipated that this loss on investment will continue to reduce and will become income as LCRC varieties increase their market share in Western Canada and the north-west tier of the United States

For net operating expenses, CANTERRA SEEDS is being as proactive by limiting expenses in areas where possible. As always, the focus will be to ensure that all expenses will guarantee a successful return on investment.

In the last few months, there has been a tremendous amount of uncertainly when it comes to the potential of a tariff war between Canada and the United States. As a Canadian company, there are clearly affects related both to these tariffs as well as the significant foreign exchange changes that accompany these tariffs. CANTERRA SEEDS is in the process of evaluating these risks and ensuring that there will be a mitigation strategy related to any negative affects to the Company.

9. ADVANCES TO/FROM RELATED AFFILIATES

Advances to/from affiliates are unsecured, non-interest bearing and have no fixed terms of repayment. The advances are made to/from Limagrain Cereals Research Canada. Generally, the advances occurred because CANTERRA SEEDS is the administrative arm for LCRC and there are charges/payment that occur within CANTERRA SEEDS that are then charged/paid through to LCRC. In addition, since LCRC is one of CANTERRA SEEDS breeding partners, royalties are owed on tech fee reports during the year. The amounts owing at both December 31, 2023, and December 31, 2024, were repaid within the first three months of the reporting dates.

10. RESPONSIBILITES, CONTROL AND POLICIES

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The consolidated financial statements, the MD&A and all other information in this interim report are the responsibility of Management and have been reviewed and approved by the Board of Directors.

REPORT FOR THE THREE MONTHS ENDED DECEMBER 31, 2024

Management, in accordance with International Financial Reporting Standards, has prepared the consolidated financial statements. The MD&A has been prepared in accordance with the requirements of securities regulators. The financial statements and MD&A include items that are based on best estimates and judgments of the expected effects of current events and transactions. Management has determined such items on a reasonable basis to ensure that the financial statements and MD&A are presented fairly in all material respects.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting, and is ultimately responsible for reviewing and approving the unaudited interim consolidated financial statements and MD&A. The Board of Directors carries out this responsibility principally through its Audit Committee.

The Audit Committee, appointed by the Board of Directors, is financially literate and is fully comprised of independent directors. The Audit Committee meets periodically with management to review the unaudited interim consolidated financial statements, the MD&A, auditing matters and financial reporting issues. The Audit Committee also discusses internal controls over the financial reporting process and ensures that each party is properly discharging its responsibilities. In addition, the Audit Committee has the duty to review the appropriateness of the accounting policies and significant estimates and judgments underlying the unaudited interim consolidated financial statements as presented by management. The Audit Committee also reviews and makes recommendations to the Board of Directors with respect to the fees of the external auditors. The Audit Committee reports its findings to the Board of Directors for its considerations when it approves the consolidated financial statements and MD&A for issuance to shareholders

Meyers Norris Penny LLP, external auditors designated by the shareholders, meets annually with the Audit Committee to discuss audit activities, financial reporting matters and other related subjects.

This report and the unaudited interim consolidated financial statements were reviewed by the Company's Audit Committee and approved by the CANTERRA SEEDS Board of Directors on February 18, 2025.

Disclosure Controls

The Chief Executive Officer (CEO) and Chief Financial Officer (CFO) are responsible for establishing and maintaining disclosure controls and procedures for the Company. The disclosure controls and procedures have been conducted under the CEO's and CFO's supervision, to provide reasonable assurance that the material information relating to the Company is known to management in the period in which the interim filings are made.

CANTERRA SEEDS Holdings Ltd.

Consolidated Statement of Financial Position

Notes to the Consolidated Financial Statements

For the three-month period ended December 31, 2024 and 2023

THESE FINANCIAL STATEMENTS ARE UNAUDITED AND WERE NOT REVIEWED BY AN AUDITOR

1. Incorporation and Operations

Entity information

CANTERRA SEEDS Holdings Ltd. (the "Company") was incorporated under the laws of the Province of Saskatchewan on March 14, 1996. The head and registered office for the Company is located at 201 - 1475 Chevrier Blvd., Winnipeg, Manitoba, Canada R3T 1Y7. The Company purchases, produces, markets, and sells seed varieties and related technologies. Due to the seasonal nature of the agricultural industry seed sales generally occur during the months of October to June. This same seasonal nature significantly affects the statement of financial position on a quarterly basis as accounts receivable, inventory and accounts payable and accrued liabilities have significant swings depending on the canola, corn, and cereals sales cycles.

The interim consolidated financial statements of the Company reflect the operations and financial position of the Company and its wholly owned subsidiaries: Canterra Seeds (2002) Ltd. (a Canadian corporation) and Canterra Seeds (USA) Ltd. (a US company) which are both fully consolidated, and its long-term investment; Limagrain Cereals Research Canada (a Canadian partnership), which is accounted for using the equity method.

2. Basis of presentation and continuing operations

Statement of compliance

The unaudited condensed consolidated interim financial statements (or "consolidated financial statements") of the Company as of December 31, 2024, have been prepared in accordance with the requirements of International Accounting Standard (IAS) 34, Interim Financial Reporting as issued by the International Accounting Standards Board (IASB). These condensed financial statements do not include all the information required for consolidated financial statements and use the accounting policies consistent with the annual audited consolidated financial statements for the year ended September 30, 2024.

These interim condensed consolidated financial statements for the three-month period ended December 31, 2024, and 2023 were recommended for approval by the Audit Committee and were approved and authorized for issue by the Board of Directors on February 18, 2025.

3. Significant accounting policies

Revenue recognition

The Company recognizes revenue and profits from the sale of seed when the seed has been shipped. Volume related royalty revenue is recognized in the period in which the sale is reported to the Company by the seed grower. Scientific Research and Experimental Development credits are recognized when the related expenses have been incurred. Deferred revenue is taken into income in the period in which it is earned. Contract services and program payments are recognized when earned.

Key accounting estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accounts receivables are stated after evaluation as to their collectability, and an appropriate allowance for doubtful accounts is provided where considered necessary. Provisions are made for slow moving and obsolete inventory. Amortization is based on the estimated useful lives of property, equipment, and other fixed assets. Scientific Research and Experimental Development tax credit claims are based on methodologies and assumptions applied by management in previous successful claims. Intangible assets consist of variety licenses and are depreciated over the life of the agreement. Management has evaluated using judgement long-term equity investments and determined if there is joint control and joint operations in place. Management has estimated that, while the terms of advances to related companies are not defined, the fair value approximates the carrying value due to the anticipated repayment dates of the advances. Management has estimated the Company's incremental borrowing rate for leases where the implicit rate cannot be determined.

These judgements, estimates and assumptions are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the periods in which they become known.
