

## **CDC Credence**

**Canada Western Amber Durum** 

An early maturity, high-yielding durum wheat variety with excellent suitability for all durum growing areas

#### **Key Features**

- Higher yielding than current commercial varieties
- Early maturing compared to Brigade
- Very high yellow pigment concentration
- Present lower FHB symptoms compared to other cultivars in its class

Overall Characteristics									
Yield	106% of Strongfield	FHB	MS						
Maturity	-2 days	Stripe Rust	R						
Height	-3 cm	Leaf Rust	R						
Lodging	VG	Stem Rust	R						
Origin	Crop Development Centre	Awned	Υ						

Height cm +/- Brigade; Maturity compared to Brigade
