

# High yielding and quality silage feed conventional hybrid from impressive base genetics

## **Hybrid Features:**

- Conventional version of highly successful A5433G3 RIB.
- Impressive plant with consistent heavy ear
- Medium-Tall plant with excellent standability and root strength
- Multi purpose for grain, silage and high moisture
- Exceptional drought tolerance and very good disease resistance

# **Positioning/Management:**

Very good tonnage and quality with excellent digestibility characteristics. Outstanding emergence and early vigour. Increased energy for more milk/beef produced. Excellent emergence, early vigour, standability and health ensure maximum performance. Highly adaptable hybrid with stable performance across soil types and previous crop. Check with PRIDE Seeds for a list of key competitors to position against.

# **Hybrid Management Guidelines:**

#### Characteristics

Ear Type	Semi-Flex
Grain Aspect	Excellent
Kernel Rows	16-18
Disease Tolerance	Excellent
Goss's Wilt Tolerance	.Very Good
Cob Colour	Red

#### Growth

Flowering for Maturity	Early
Mid Flowering	1220
Black Layer	2310
Emergence	Excellent
Spring Vigour	Excellent
Plant Height	Tall
Ear Height	Medium
Stalk Strength	Excellent
Root Strength	Excellent
Staygreen	Very Good
Drought Tolerance	Very Good

## Adaptability

Grain	Excellent
Silage	Very Good
High Moisture Corn	Excellent

#### Planting

Suitability: Hybrid that performs well on all soils Final Population (000s per acre): 32-38

## Harvest

Harvest Timing......Flexible Dry Matter Content..... Very Good Energy .....High Starch Content..... Very Good Digestibility.....Very Good

and characteristics are assigned by Pride Seeds based on comparisons with other Pride Seeds products (not competitive products) through observations and in-house field testing. Individual results may vary depending on local growing, soil and weather conditions and agronomic pra
