

ALLIANCE SEED AAC FETCH

AAC Fetch is your next best oat variety to grow. Offering early maturity, high yield potential and a strong disease package with resistance to crown rust and stem rust.

AAC Fetch strengths:

- High yield potential 101% of CS Camden
- Very early maturity, earlier than all checks, similar to CS Camden
- Good plumpness
- Low thins, within range of checks
- High protein
- Very low oil content
- Good beta glucan content
- Excellent TDF
- Resistance to oat crown and stem rust

AAC Fetch neutral traits:

- Heading similar to checks
- Lodging same as checks
- Plant height within range of checks
- Kernel weight similar to checks
- Groat percentage similar to CS Camden

AAC Fetch weaknesses:

- TWT lower than all checks but within target specifications
