

# CDC Calvi

## Canary seed

A proven high-yielding canary seed with excellent seed quality

- High yields (105% of CDC Bastia)
- Full season maturity (similar to Keet)
- Taller but with good lodging resistance

## YIELD PERFORMANCE

## OVERALL CHARACTERISTICS

|                                     |                                   |
|-------------------------------------|-----------------------------------|
| <b>Maturity</b>                     | Late                              |
| <b>Height</b>                       | Tall                              |
| <b>Growing Zone</b>                 | All canaryseed growing areas (SK) |
| <b>Lodging Resistance</b>           | Good                              |
| <b>Test Weight</b>                  | 71.2 kg/hl                        |
| <b>Thousand Kernel Weight</b>       | 8.3 g                             |
| <b>Seed Coat Color / Appearance</b> | Brown / Glabrous                  |
