

PS 00078 XRN

000.7 MG

ULTRA SHORT Season Zone

Description

- Excellent new opportunity in ultra short season zones
- Provides tolerance to dicamba and glyphosate herbicides
- Excellent yield for maturity rating
- Very solid, stable Roundup Ready 2 Xtend variety
- Very early maturing, well podded
- Excellent high yield consistency
- Excellent potential in AB, SK and Western MB
- Visually attractive plant
- Plant is 4" shorter than PS0035NR2

Management

Excellent choice for ultra short season zones
 Best on row widths at 15" and less
 Very good phytophthora field tolerance
 Excellent white mould resistance
 Carries built in phytophthora and scn
 Prefers light fertile soils

Agronomics

Flowering	Purple
Pubescence Clr	Tawny
Hilum Clr	Black
Plant Height	Short
Seedling Vigor	Good
Phytophthora	Rps 1c
Lodging	Excellent
Canopy	Slender
IDC tolerance	Semi-Tolerant
Herbicide Tolerant	RR2Xtend
SCN	Yes
