

PS 0035 NR2

Roundup Ready 2 Yield[®] Soybean

Consistent performer with early-mid maturity with great yield potential

- Great combination of strong SCN resistance and above average IDC tolerance
- Very good plant height and branching habit
- Very stable performance under a wide range of environmental conditions

OVERALL CHARACTERISTICS

Maturity Group	00.3
Iron Deficiency Chlorosis	Semi Tolerant
Hilum Colour	Black
Plant Height	Medium
Canopy	Medium Bushy
Pubescence	Tawny (Fauve)
Seeds per kg	4500 - 5150
Phytophthora Field Tolerance	Good
Emergence	Very Good
Standability	Very Good
White mould resistance	Very Good
Sudden Death Syndrome	Excellent
No-till Adaptability	Excellent
Sand	Very Good
Clay	Very Good
Loam	Excellent
