Barley · Two-row feed (general purpose)

Reliable two-row general-purpose feed barley for western Canada

- 101% in Alberta (provincial guides, % of check)
- Good lodging resistance, 76 cm tall
- Good resistance to net-form net blotch (MR), loose smut (R)
- Silage yield 95% of CDC Austenson in Alberta silage trials (previously tested), 64.1% TDN

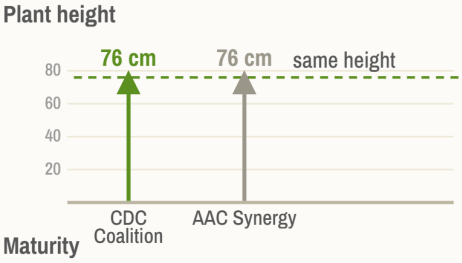

YIELD PERFORMANCE vs AAC Synergy · 2026 provincial seed guides

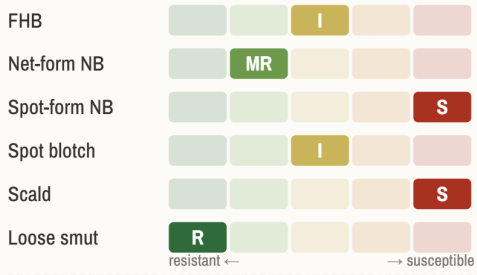

OVERALL CHARACTERISTICS	
Type	Two-row feed (general purpose)
Maturity	Late
Height	76 cm (-5 cm vs AAC Synergy)
Lodging resistance	Good
Data	Alberta Seed Guide (not in the SK guide tables)

AT A GLANCE

Height and maturity vs AAC Synergy

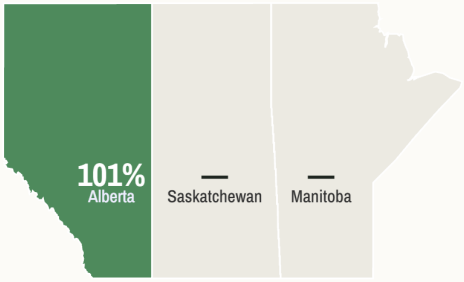

Resistance at a glance (SaskSeed Guide 2026)

Management tips — these ratings are well handled with standard practices and don't take away from the variety's value

- **Net blotch (S):** rotate away from barley, use a seed treatment, and apply a foliar fungicide at flag leaf when pressure is high
- **Scald (S):** rotation and a foliar fungicide at flag leaf in wet seasons

Yield vs AAC Synergy by province

Saskatchewan = average of Areas 1 & 2 and 3 & 4; Alberta = overall yield category; Manitoba = % of the check in Seed Manitoba.
