Celebration

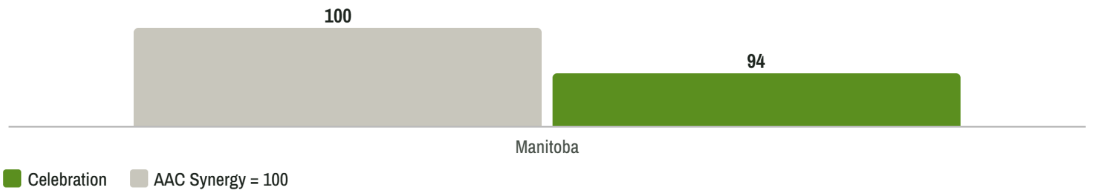

Barley · Six-row malting

Reliable six-row malting barley for western Canada

- 94% in Manitoba (provincial guides, % of check)
- Good lodging resistance
- Good resistance to spot-form net blotch (MR), spot blotch (MR), loose smut (R)
- Better loose smut resistance than Legacy (R vs I)

YIELD PERFORMANCE vs AAC Synergy · 2026 provincial seed guides

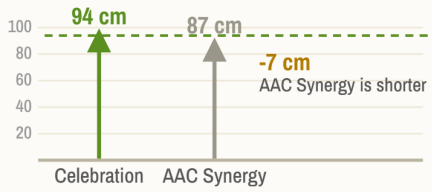

OVERALL CHARACTERISTICS	
Type	Six-row malting
Maturity	Mid
Height	+5 cm vs check
Lodging resistance	Good
Data	Seed Manitoba (not in the SK or AB guide tables)

AT A GLANCE

Height and maturity vs AAC Synergy

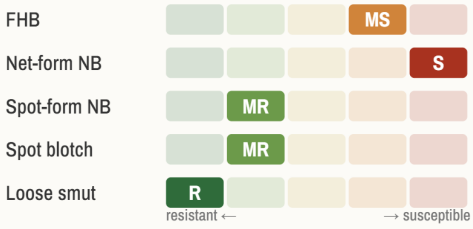

Plant height

Maturity

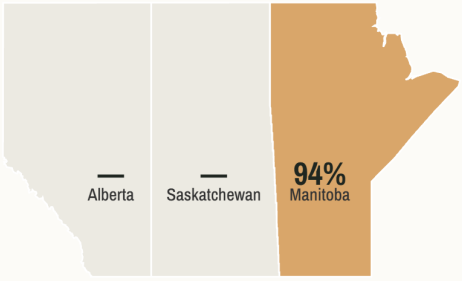

Resistance at a glance (Seed Manitoba 2026)

Management tips — these ratings are well handled with standard practices and don't take away from the variety's value

- **FHB (MS):** manage with a timely fungicide at early flowering, crop rotation away from cereals and corn, and a seed treatment
- **Net blotch (S):** rotate away from barley, use a seed treatment, and apply a foliar fungicide at flag leaf when pressure is high

Yield vs AAC Synergy by province

Saskatchewan = average of Areas 1 & 2 and 3 & 4; Alberta = overall yield category; Manitoba = % of the check in Seed Manitoba.
