Technical Bulletin

CS Camden

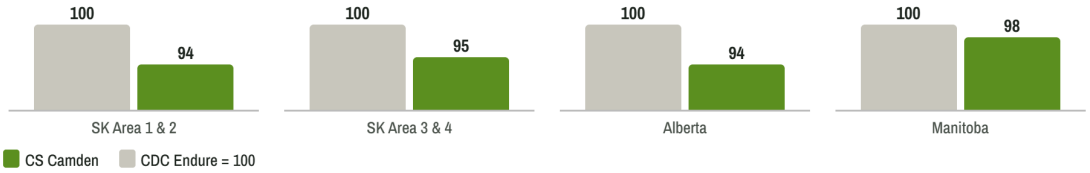

Oat · Milling

Dependable milling oat variety for western Canada

- Reigning oat quality standard
- Very good lodging resistance, 94 cm tall
- On the recommended list with millers and end users
- Better standability than Summit (VG vs G)
- 14 cm shorter than CDC Arborg
- Higher protein than CDC Arborg (+1.1 points)

YIELD PERFORMANCE vs CDC Endure · 2026 provincial seed guides · comparisons other than the check are worked out from each source's % of check

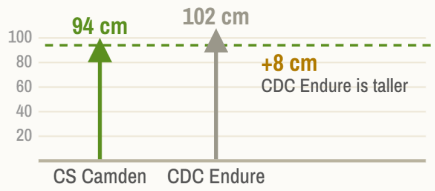

OVERALL CHARACTERISTICS	
Maturity	Late
Height	94 cm
Lodging resistance	Very good
Protein	17%
Test weight	242 g/0.5L

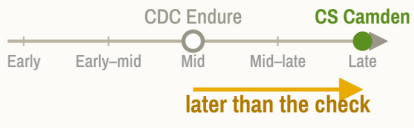

AT A GLANCE

Height and maturity vs CDC Endure

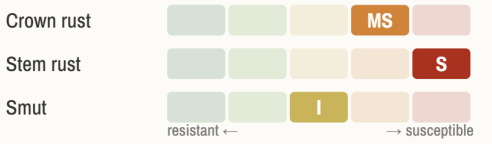

Plant height

Maturity

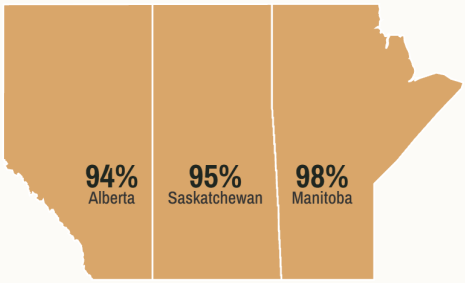

Resistance at a glance (SaskSeed Guide 2026)

Management tips — these ratings are well handled with standard practices and don't take away from the variety's value

- **Crown rust (MS):** scout early; a fungicide at flag leaf protects yield and quality, and avoid fields near buckthorn
- **Stem rust (S):** scout from flag leaf; a fungicide at flag leaf to heading protects yield if rust appears

Yield vs CDC Endure by province

Saskatchewan = average of Areas 1 & 2 and 3 & 4; Alberta = overall yield category; Manitoba = % of the check in Seed Manitoba.
